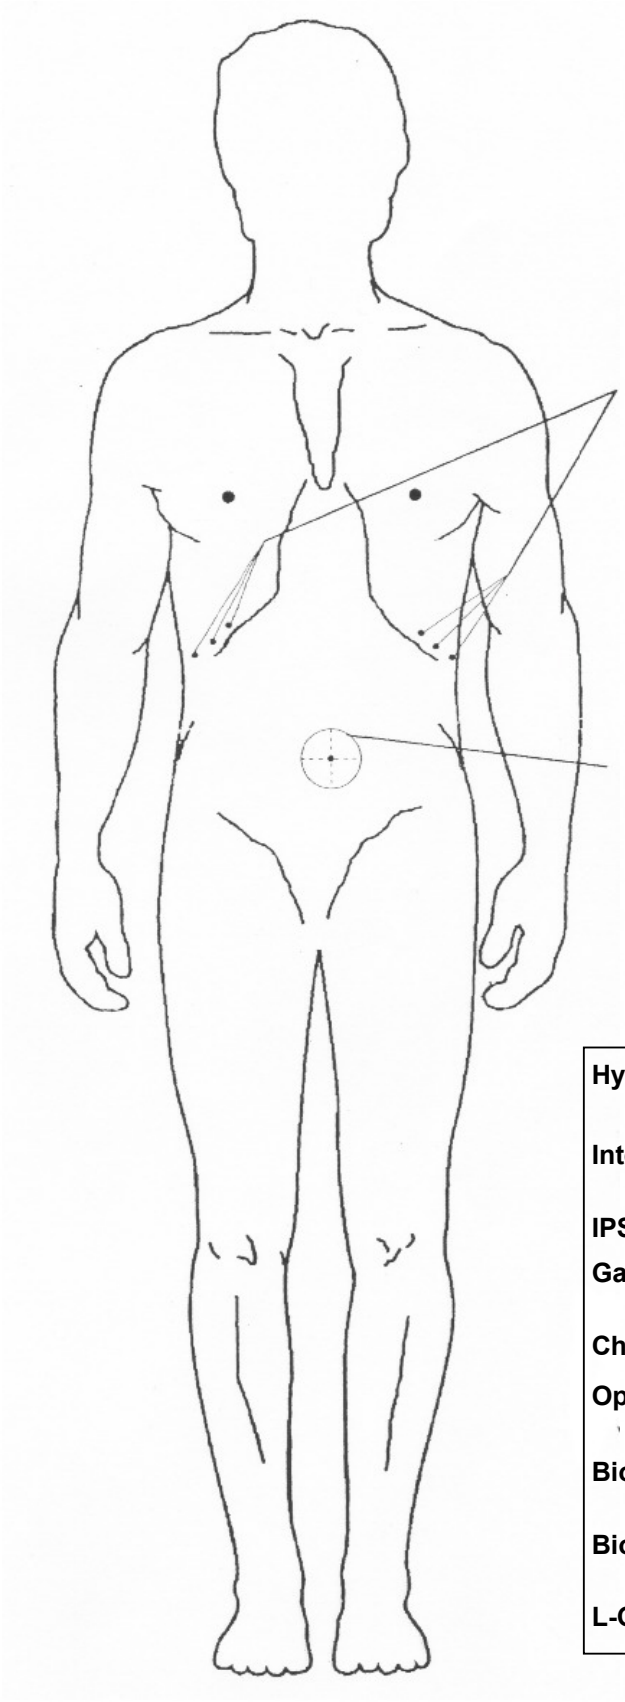
Functional Evaluation of Digestion



Small Intestine

CHAPMAN REFLEX SMALL INTESTINE

8, 9 & 10th intercostal spaces near tip of the rib.

BENNETT REFLEXES SMALL INTESTINE

Palpate four quadrants in a 3” to 4” radius around the umbilicus looking for tenderness and superficial tension. Use neurolingual testing to see which nutrient negates or relieves tenderness or tension. See below for options.

Hydro-Zyme™	Upper GI digestive support with HCL™ Gut healing nutrients & vitamin U
Intenzyme Forte™ or Bio-6-Plus	Pancreatic Enzymes
IPS®	Nutrients that heal the intestines
Gastrazyme™	Gastrointestinal Support with Vitamin U Complex
Chlorocaps™	Water & fat soluble forms of chlorophyll
Optimal EFAs®	Omega 3, 6 & 9 from fish, organic borage & flax seed
Bio-D-Mulsion Forte®	Emulsified for enhanced utilization, 2,000 IU per drop
BioProtect™	Broad spectrum antioxidants
L-Glutamine	Free-form amino acid, powder or capsules
